SUMMARY

Pre-final year Cybersecurity student with strong foundational knowledge in security principles and hands-on experience in Capture The Flag (CTF) competitions. Skilled in creating and hosting CTF challenges, including deploying them on cloud platforms. Keeps up with the latest cybersecurity trends and techniques in a proactive and consistent manner.

PRACTICAL EXPERIENCE

Technical Team Lead – OWASP Student Chapter

- Participate in CTF competitions, solving challenges involving system vulnerabilities, cryptography, and logic.
- Create and deploy custom CTF challenges, including hosting them on cloud platforms.
- Develop hands-on security scenarios bridging theoretical knowledge with practical application.

PROJECTS

PACKET ANALYZER AND CTF TOOL

- Packet Police is a two-in-one web tool for cybersecurity. It lets you analyze regular network traffic, but it also acts as an automatic detective for Capture The Flag (CTF) games by finding, piecing together, and decoding hidden data to reveal security flags instantly.

DEEPPFAKE DETECTOR UI

- Developed a deepfake detection platform using the FaceForensics++ dataset to identify synthetic manipulations and pixel-level inconsistencies in MP4 and PNG files. Engineered a real-time Flask interface to process media uploads and detect facial artifacts, providing authenticity reports along with JSON-based diagnostic outputs. Leveraged deep learning techniques to enable high-precision media forensics and reliable detection results.

SKILLS

- Security: Wireshark, Nmap, and Metasploit
- Analysis: Burp Suite, SQLMap, and SIEM fundamentals.
- Systems: Kali Linux, Windows, and Active Directory.
- Web & Data: JavaScript, SQL, AWS.
- Workflow: AI-assisted learning and task automation.

CERTIFICATIONS

- Sec 1 (TryHackMe)
- Cybersecurity 101 (TryHackMe)
- Google Cybersecurity Professional Certificate (Coursera)

ACHIEVEMENTS

- 1st Place – WARGAMES CTF
- 1st Place – COSMOS CTF
- 2nd Place – HackOps CTF

EDUCATION

- | | |
|--|-------------|
| • Sathyabama Institute of Science and Technology (Chennai, India)
B.E - Computer Science and Engineering with specialization in Cybersecurity | 2023 - 2027 |
| • Indian School Al Wadi Al Kabir (Muscat, Oman)
Secondary, Higher Secondary | 2011 - 2023 |
